63   I feel this post might help people who are interviewing at amazon. I have taken some of my time to post

▼   **Online assessment:**(Mar 17)

- Articulation points
- No of islands
- LP questions(MCQ)
  https://leetcode.com/discuss/interview-question/344650/Amazon-Online-Assessment-Questions

Phone screen:(Mar 31)

- 2 LP questions with LC medium coding question on graph. Interviewer seemed professional

Round 1:
Interviewer Joined Late

- 20+ min behavior questions

- OOAD + Coding: Got only 15 mins to do this coding question. I was able to give the solution in O
  leetcode

Round 2:

- 30+ min behavior questions
- Coding Leet code hard question, I was able to give him the solution and this round went well. Inte
- Q&A 5-10 min

Lunch

Round 3: Manager
Interviewer Joined 5 mins late

- 30+ min behavior questions

Manager was on rush as we don't have time and started system design I used draw.io

- System design easy question but the manager was actually questioning on every single statement
  reason's for each of my statements but at one point of time he asked me 3 questions it was tough
  memorize his questions and explain in detail

I kind of got screwed in this round. I think my post my might help people to get prepared to handle tho

Round 4:

- 30+ min behavior questions
